Orchard Programme : Jan 2020

Dear Namada Charan,

Warm Greetings from Orchard Team!

Hope you are doing well!!

As you know we had rolled out a survey to all the Campus Minds to share their Orchard experience and we would like to share the results with you. We from Orchard Team thank you for your passion and commitment to nurture these young professionals. We look forward to collaborate with you to build expertise that help our businesses excel.
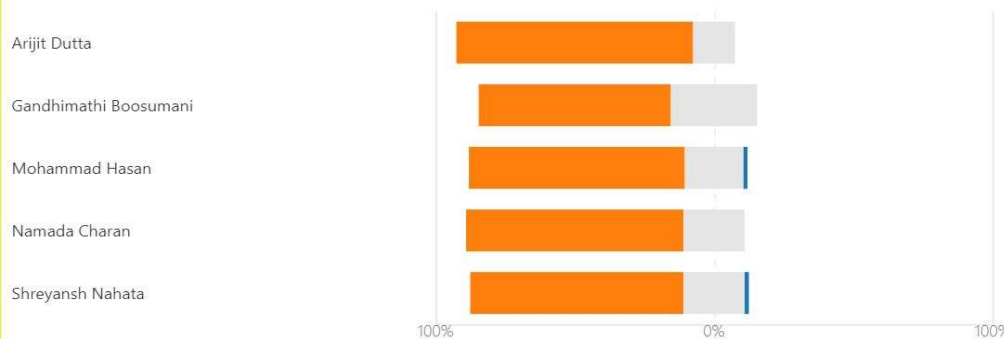

To begin with, Campus Minds were asked to rate their leads in terms of technical, communication, mentoring and evaluation skills amongst others.

Here's their feedback!!

Rate your lead based on his/her Technical Skill.

More Details
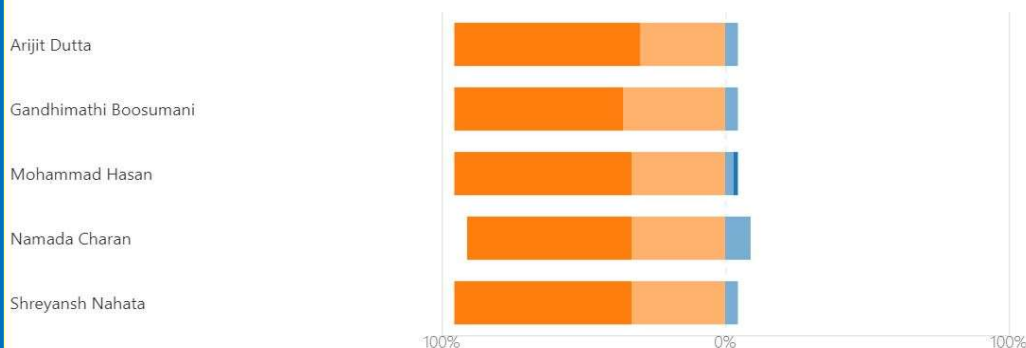

■ Expert   ■ Mediocre   ■ Not upto the mark

Arijit Dutta

Gandhimathi Boosumani

Mohammad Hasan

Namada Charan

Shreyansh Nahata

100%   0%   100%

Rate your lead based on his/her Communication skill.

Track: Dotnet Core

Open Feedback

Charan is a very good person with great skills and great teaching skills.
Very helpful in nature and friendly with the team members.
He always encourages the team when we faced blockers in the code.

He is very meticulous in his approach. He had proper plans for us.
He always knew how to manage us and give us tasks.

Good knowledge of concepts.
Lacking in communication based on language, should motivate every team member so that they can work with positive mindset

Namada Charan is a very good person with good technical and communication skills.
Very helpful and friendly in nature and encourages the team with good support for learning things.

He is a hard worker.
Motivated us and made us to push our limits. Learnt more things in Project camp than Engineering camp.
He has good knowledge. He made us to implement good features in projects

Good teaching skills

Project camp lead is very cool and he explains if you are stuck anywhere.

He was very good. He took care of us. He supported us.
He took lot of efforts on us to complete Orchard successfully.

Today i cleared my Orchard Learning because of Charan.
He gave us so many problem statements like real time that we are able to solve those kind of stuffs.
I can proudly say that we have more hands on on each and every capability when compared to other teams because of him.

He is very good person and he used to mingle with every Campus Mind as a good friend.
He used to give more effective words which is very useful.
He used to always encourage the team members when we faced blockers in the code.
He has good technical skills, great teaching skills and well understanding of each team members.

He has good knowledge of technology

He is very good. He always try to expand our limit and has very good experience with him.

Very nice lead.
Helped a lot during this unprecedented situation that Covid-19 has brought.

Leads Feedback helped me in
To clear my capability
Progressing and writing the code
Lead feedback helped me in coding challenge and learning more things
Believing in my own capabilities
Improving knowledge
To improve my coding skill and it will help me in correcting my mistakes
To push my strength and perform my best
Lead feedback helps me in improving my skills
Improving my skills and confidence
Improving my skills Got to know where I am strong and where I am lacking and where I have to focus
Feedback helped me in fixing my errors

Building my programming skills
How to understand the concepts in a better way and also improve my skills better
Improving the quality of my code and following proper coding standards, developing a work pace
Learning
Improve the areas where I am lagging in, where - I can improve and maintain certain coding standards
Increasing my Coding Standard and write more optimize my Code
Not losing hope and working consistently
To get to know were i am lacking and work on it
They helped in knowing and understanding how to learn from other resources.
Grow as a person Know where - i am lacking, can change the idea of a code so that it will be more optimized
It helped me to build my logical and technical skills
Improvising concepts as per industry requirement
Helped me in improving the learning skills
Helped me in understanding the concepts much more deeper
Improving coding standards and implementing good logics
Understanding the topics
Improving myself
Clearing the capabilities
Improving myself in coding standards, concepts.
Improving my coding skills
He always gave feedback after coding challenges and that helped me rectify my mistakes
Growing and gaining knowledge
Improved the learning skills and good communication skills
Solving the bugs
To improve myself and my technical knowledge.
When i stuck in problem lead will give the hint to help me out
Improving my basics
In understanding the basics of the various topics
Working on required areas
Better understanding of topics

To evolve and to understand my mistakes and how to rectify them

In clearing my concepts more throughly
Also, I am able to clear my capability in a more understanding way

My lead was so helpful , if i got stuck in some topic he used to made us understand the topic from basic. Made to solve us more problem statement. He is a motivating person.

Progress

My project camp lead helped me in MVC Filter Config

Knowing my drawbacks and in improving my skills

Improving me. My difficulties were resolved.

How to find solution of any error or any problem coming in my code

Improving my problem solving skill

Improving my coding stranded and also it helped me to understand about exceptions and resources.

It helped me realize my mistake and not to repeat them in future.

Clearing doubts

Learning concepts more deeply

Understanding the problem. the best approach to solve the problem

Improve my technical knowledge. Helped me in resolving my issue.

My lead helped me to work effectively and in right direction.

Understanding topics provided me with different sources.
Helped me gain confidence back in some situations

Name few leads whom you consider as role model
